

Master Parts Manual

Compact Track Loader

PT-30/RT-30 AUS

Printed 4/21

This book covers Australian PT-30 / RT-30 machines with serial numbers 05253-07538 only.

If your serial number is 07539 or above, please reference the US RT-30 master parts manual for parts information on your machine.

Table of Contents

1. Cab (R.O.P.S.) Assembly		13. Undercarriage Assembly (RT)

* Parts manuals are updated on a regular basis. Always refer to current online posted manuals to ensure you have the most current information prior to ordering parts.

NOTE: Ordering parts that are painted requires a specific part number format. Please refer to page II of this manual for paint code and ordering information.

Painted Service Parts

ordering guidelines

Compact Track and Skid Steer Loaders are available in various colors and nomenclatures (brands / model names). **Paint color needs to be specified when ordering painted components.** When ordering painted components, inform the support representative of the brand and model name of your machine before selecting the proper color from the list below. The support representative should be able to assist you in finding the correct one based on your machine's **VIN number**. This should help to identify the original machine configuration and nomenclature.

***Note:** Not all colors are available on all components. Available colors are limited to those considered “standard” on your particular machine and component(s). Please do not attempt to order non-standard colors for your machine as the order will not be fulfilled until corrected.

The color codes are to be referenced as a suffix to the part number of the component you are requesting, for example: 0000-000-GRN (indicating a green part).

The following is a list of available colors.

<u>Color</u>	<u>Color Code:</u>
BLACK	BLK (ALL MODELS)
WHITE	WHT (TEREX)
YELLOW	YEL (VERMEER)
YELLOW	YEY (ASV)
GREEN	GRN (SUNBELT)
RED	RED (TAKEUCHI)
GRAY	GRY (TEE)
GRAY	GTG (SKID STEER WHEELS ONLY)
ORANGE	ORN (ASPLUNDH)

GENERAL SERVICE ITEMS & LUBRICANTS

PIN SERVICE INFORMATION

This information applies to machines with serial numbers ranging from 5148 to 5961 ONLY

Location used	Pin length (inches)	Standard pin part # (in parts manual)	Standard Pin OD	corresponding standard bushing	Optional pin part #	Optional Pin OD	Corresponding optional bushing	Notes
Lift arm cylinder, base end	4.35	2010-147	.997-1.01	2010-554	2010-662	1.020 (-0/+ .004)	0003-095	1 bushing used per 1 pin
Lift arm, rear tower pivot	4.35	2010-147	.997-1.01	2010-272	2010-662	1.020 (-0/+ .004)	0003-094	2 bushings used per 1 pin
Tilt cylinder, base end	5.625	2030-328	.995-.999	2010-554	2010-664	1.020 (-0/+ .004)	0003-095	1 bushing used per 1 pin

Some Machines are equipped with optional pins with dimensions as listed above. When ordering pins or bushings it is important to first measure the pin. Always measure the pin on a non moving, unworn surface. Order pins based on above part # most closely matching your measures. Always order standard or optional bushing in conjunction with standard or optional pin.

NOTE: It is best to measure the pin, on an unworn surface, and order the corresponding bushing rather than try to measure the bushing.

*pin length measured as above

*Pin OD's should be measured at non-moving point so measures are not affected by normal wear
