\* “Current” refers to the machines being produced at the time this manual was printed. See manual cover for print date.

Parts manuals are updated regularly. To ensure current information, always refer to the latest version of this manual (posted online, consult your dealer).

**NOTE:** When ordering parts that are painted, a specific part number format is required. Please refer to page II of this manual for paint code and ordering information.

## Painted Service Parts

### ordering guidelines

Compact Track and Skid Steer Loaders are available in various colors and nomenclatures (brands / model names). **Paint color needs to be specified when ordering painted components.** When ordering painted components, inform the support representative of the brand and model name of your machine before selecting the proper color from the list below. The support representative should be able to assist you in finding the correct one based on your machine's **VIN number**. This should help to identify the original machine configuration and nomenclature.

**\*Note:** Not all colors are available on all components. Available colors are limited to those considered “standard” on your particular machine and component(s). Please do not attempt to order non-standard colors for your machine as the order will not be fulfilled until corrected.

The color codes are to be referenced as a suffix to the part number of the component you are requesting, for example: 0000-000-GRN (indicating a green part).

The following is a list of available colors.

| <u>Color</u> | <u>Color Code:</u>           |
|--------------|------------------------------|
| BLACK        | BLK (ALL MODELS)             |
| WHITE        | WHT (TEREX)                  |
| YELLOW       | YEL (VERMEER)                |
| YELLOW       | YEY (ASV)                    |
| GREEN        | GRN (SUNBELT)                |
| RED          | RED (TAKEUCHI)               |
| GRAY         | GRY (TEE)                    |
| GRAY         | GTG (SKID STEER WHEELS ONLY) |
| ORANGE       | ORN (ASPLUNDH)               |

## Section 13

This diagram illustrates the exploded view of a vehicle chassis assembly, showing the relationship between various components. The main frame (1) is the central longitudinal member. Key components include:

- Wheels and Axles:** Four wheels (2) are mounted on axles (3). The axles are supported by bearings (4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53).
- Braking System:** A master cylinder (26) is connected to a brake line (43) and a brake caliper (45). A brake master cylinder (44) is also shown.
- Steering System:** A steering knuckle (30) is connected to a steering arm (38) and a steering knuckle (39).
- Other Components:** A shock absorber (37) is shown, along with various bolts (38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53) and nuts (38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53).

The diagram is a technical drawing showing the exploded view of a vehicle chassis assembly. It includes various components such as wheels, axles, bearings, springs, shock absorbers, and suspension parts, all labeled with numbers for identification. The assembly is shown in a disassembled state to illustrate the relationship between the parts.
