Painted Service Parts

ordering guidelines

Compact Track and Skid Steer Loaders are available in various colors and nomenclatures (brands / model names). **Paint color needs to be specified when ordering painted components.** When ordering painted components, inform the support representative of the brand and model name of your machine before selecting the proper color from the list below. The support representative should be able to assist you in finding the correct one based on your machine's **VIN number**. This should help to identify the original machine configuration and nomenclature.

***Note:** Not all colors are available on all components. Available colors are limited to those considered “standard” on your particular machine and component(s). Please do not attempt to order non-standard colors for your machine as the order will not be fulfilled until corrected.

The color codes are to be referenced as a suffix to the part number of the component you are requesting, for example: 0000-000-GRN (indicating a green part).

The following is a list of available colors.

<u>Color</u>	<u>Color Code:</u>
BLACK	BLK (ALL MODELS)
YELLOW	YEY (ASV)
WHITE	WHT (TEREX)
GREEN	GRN (SUNBELT)
GRAY	GRY (TEE)
ORANGE	ORN (ASPLUNDH)

Chapter 5

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The components are numbered 1 through 27. The assembly is shown in two main sections. The upper section shows the assembly of a housing or cover, starting with a base plate (1) and a flange (2). A series of bolts (3, 4, 5) and washers (6, 7) are used to secure the flange. A central shaft (8) is inserted, followed by a series of seals or gaskets (9, 10, 11). The lower section shows the assembly of the main body, starting with a base plate (12) and a flange (13). A series of bolts (14, 15) and washers (16, 17) are used to secure the flange. A central shaft (18) is inserted, followed by a series of seals or gaskets (19, 20, 21). The final assembly is shown with a long shaft (22) and a series of seals or gaskets (23, 24, 25, 26, 27).

Chapter 5

This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or motor. The components are numbered 1 through 27. The assembly is shown in three main sections, separated by dashed lines to indicate their relative positions and assembly sequence.

- Top Section:** This section shows the main housing and internal components. It includes a large circular flange (10) with a central shaft (11). A series of smaller components, including a gear (8) and a shaft (9), are shown in the middle. The bottom part of this section shows a complex internal assembly (12) with multiple gears and shafts.
- Middle Section:** This section shows the main body (17) of the device. It features a large circular opening (18) and a smaller opening (19). A shaft (20) is shown passing through the main body. A small component (16) is shown near the main body.
- Bottom Section:** This section shows the drive mechanism. It includes a motor (24) with a shaft (25) and a coupling (26). A small component (27) is shown at the end of the shaft.

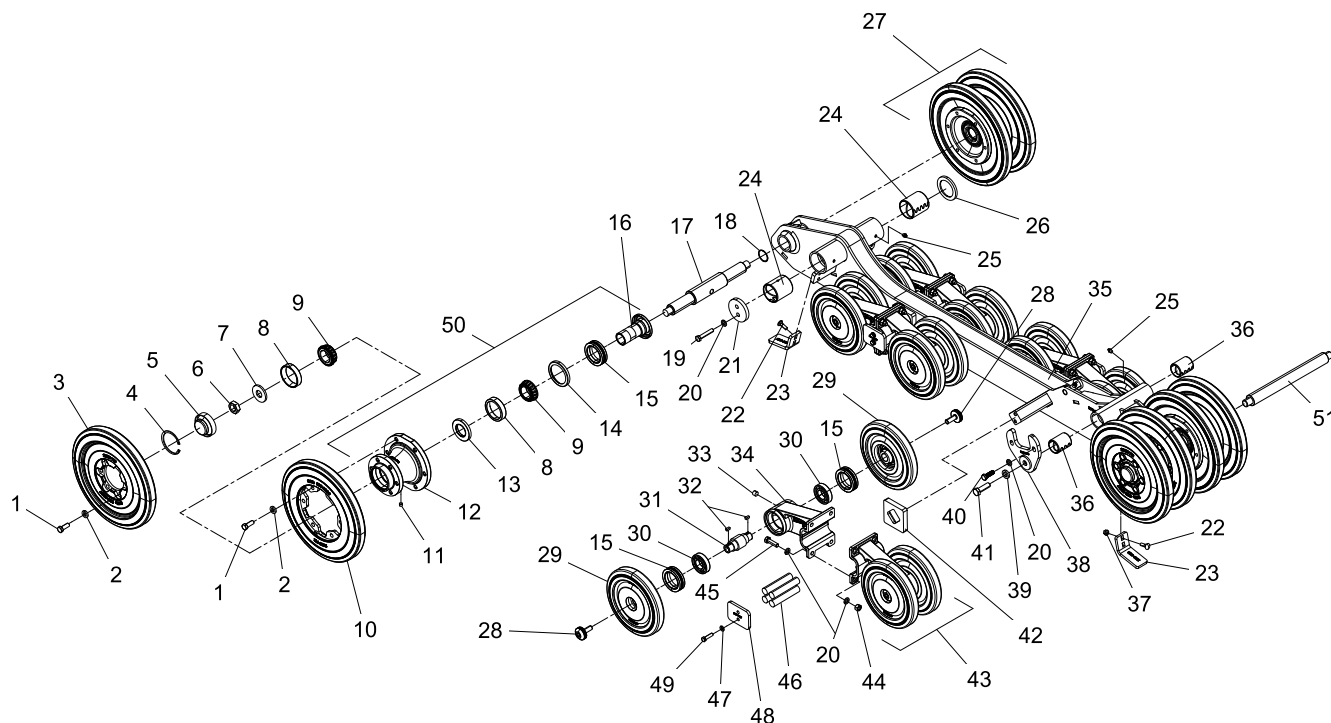

The diagram uses dashed lines to indicate the assembly path and the relative positions of the components. The numbers 1 through 27 are used to identify each individual part.

This exploded view diagram illustrates the assembly of a bicycle repair stand. The components are numbered as follows:

- 1**: A rectangular panel or screen.
- 2**: A frame or support structure for the panel.
- 3**: A vertical support post or frame section.
- 4**: A small electronic or control unit.
- 5**: A long, thin horizontal bar or arm.
- 6**: A small component, possibly a sensor or switch.
- 7**: A small circular component, likely a wheel or roller.
- 8**: A small rectangular component.
- 9**: A small circular component.
- 10**: A small rectangular component.
- 11**: A small circular component.
- 12**: A long, thin horizontal bar or arm.
- 13**: A long, thin horizontal bar or arm.
- 14**: A small rectangular component.
- 15**: A curved arm or support structure.
- 16**: A small rectangular component.
- 17**: A small rectangular component.
- 18**: A small rectangular component.
- 19**: A small rectangular component.
- 20**: A long, thin horizontal bar or arm.
- 21**: A curved arm or support structure.
- 22**: A small rectangular component.
- 23**: A small rectangular component.

Chapter 7

This exploded view diagram illustrates the assembly of a mechanical component, likely a door or panel. The parts are numbered 1 through 42. The diagram shows the following components and their assembly relationships:

- Part 1:** The main vertical frame or door panel.
- Part 2:** A long vertical support or hinge plate that attaches to the bottom of Part 1.
- Part 3:** A top hinge or latch mechanism that fits into the top of Part 1.
- Part 4:** A side hinge or latch mechanism that fits into the side of Part 1.
- Part 5:** A small rectangular plate or spacer.
- Part 6:** A small circular fastener or pin.
- Part 7:** A small circular fastener or pin.
- Part 8:** A small rectangular plate or spacer.
- Part 9:** A small circular fastener or pin.
- Part 10:** Multiple instances of a small rectangular plate or spacer used throughout the assembly.
- Part 11:** A small circular fastener or pin.
- Part 12:** A small rectangular plate or spacer.
- Part 13:** A small rectangular plate or spacer.
- Part 14:** A small rectangular plate or spacer.
- Part 15:** A large rectangular plate or cover that fits over the top of the assembly.
- Part 16:** A small rectangular plate or spacer.
- Part 17:** A small circular fastener or pin.
- Part 18:** A small circular fastener or pin.
- Part 19:** A small circular fastener or pin.
- Part 20:** A small rectangular plate or spacer.
- Part 21:** A small rectangular plate or spacer.
- Part 22:** A small rectangular plate or spacer.
- Part 23:** A small rectangular plate or spacer.
- Part 24:** A small rectangular plate or spacer.
- Part 25:** A small circular fastener or pin.
- Part 26:** A small circular fastener or pin.
- Part 27:** A small circular fastener or pin.
- Part 28:** A small rectangular plate or spacer.
- Part 29:** A small rectangular plate or spacer.
- Part 30:** A small rectangular plate or spacer.
- Part 31:** A small rectangular plate or spacer.
- Part 32:** A small rectangular plate or spacer.
- Part 33:** A small circular fastener or pin.
- Part 34:** A small circular fastener or pin.
- Part 35:** A small circular fastener or pin.
- Part 36:** A small rectangular plate or spacer.
- Part 37:** A small rectangular plate or spacer.
- Part 38:** A small rectangular plate or spacer.
- Part 39:** A small rectangular plate or spacer.
- Part 40:** A small rectangular plate or spacer.
- Part 41:** A small circular fastener or pin.
- Part 42:** A small circular fastener or pin.

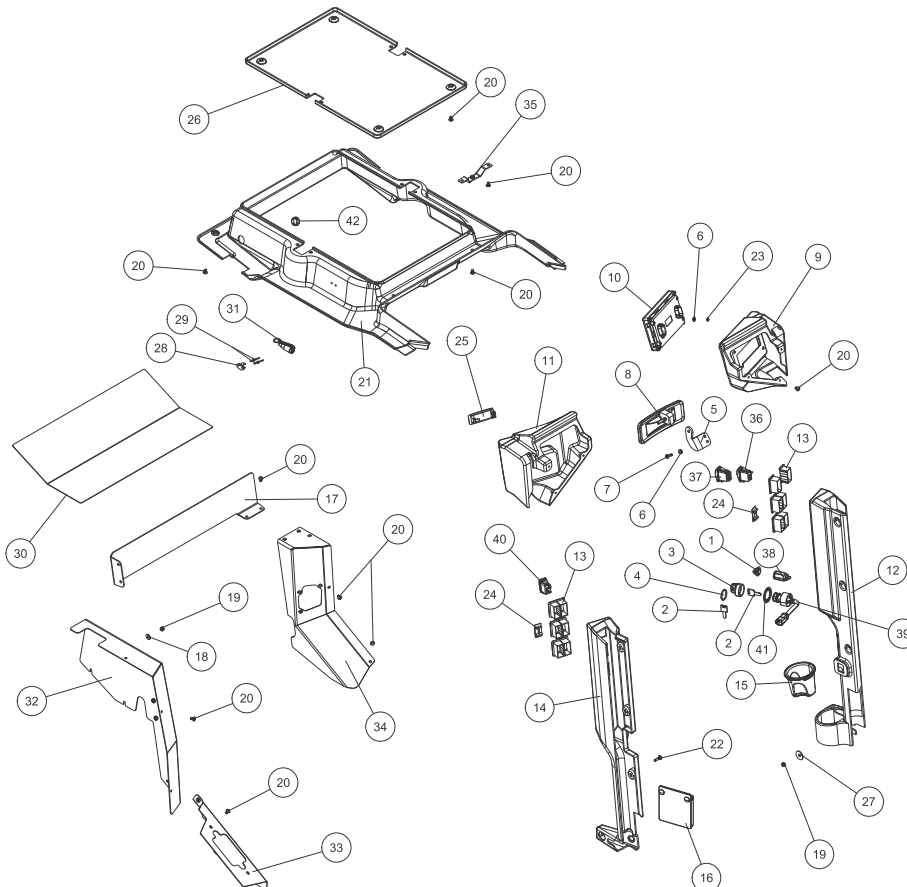

The diagram shows the assembly sequence from the main frame (Part 1) down to the base (Part 2), with various hinges and fasteners (Parts 3-11) securing the top and sides. The cover plate (Part 15) is shown at the top, and the base plate (Part 22) is shown at the bottom.
