Painted Service Parts

ordering guidelines

Compact Track and Skid Steer Loaders are available in various colors and nomenclatures (brands / model names).

Paint color needs to be specified when ordering painted components. When ordering painted components, inform the support representative of the brand and model name of your machine before selecting the proper color from the list below. The support representative should be able to assist you in finding the correct one based on your machine's **VIN number**. This should help to identify the original machine configuration and nomenclature.

***Note:** Not all colors are available on all components. Available colors are limited to those considered “standard” on your particular machine and component(s). Please do not attempt to order non-standard colors for your machine as the order will not be fulfilled until corrected.

The color codes are to be referenced as a suffix to the part number of the component you are requesting, for example: 0000-000-GRN (indicating a green part).

The following is a list of available colors.

<u>Color</u>	<u>Color Code:</u>
BLACK	BLK (ALL MODELS)
YELLOW	YEY (ASV)
WHITE	WHT (TEREX)
GREEN	GRN (SUNBELT)
GRAY	GRY (TEE)
ORANGE	ORN (ASPLUNDH)

This exploded view diagram illustrates the assembly of a window unit. The components are numbered as follows:

- 1, 2, 3, 4:** Outer frame or trim pieces.
- 5, 6, 7, 8, 9:** Small fasteners or clips used to secure the frame pieces.
- 10:** A separate frame or panel component.
- 11, 12, 13:** Components of the window sash or inner frame.
- 14:** A small circular fastener or cap.
- 15, 16, 17, 18, 19, 20, 21, 22, 23, 24:** Various hardware, including bolts, washers, and a handle, used to assemble the main window frame.
- 25:** A small triangular component, possibly a corner brace or clip.
- 26, 27, 28:** Components of a locking mechanism, including a bolt and a handle.
- 29:** A small rectangular component, possibly a latch or seal.
- 30, 31, 32, 33:** Additional hardware, including bolts, washers, and a handle, used for the lower part of the assembly.

The diagram shows the spatial relationship between these parts, indicating how they fit together to form the complete window assembly.

This diagram shows an exploded view of a tracked loader, illustrating the assembly sequence for various components. The main body of the loader is shown in the center, with the bucket and track system clearly visible. Numbered callouts (1 through 23) point to specific parts that are to be installed. The components include:

- 1, 2, 3, 4, 10:** Small rectangular plates or spacers, likely for the track system or bucket linkage.
- 5:** A small rectangular plate located inside the bucket.
- 6:** A small rectangular plate on the side of the loader's body.
- 7, 8, 9, 11, 12, 13, 14, 15, 16, 17, 18, 19:** Various small rectangular plates and spacers, primarily for the track system and rear suspension.
- 20:** A larger rectangular plate on the top of the loader's body.
- 21, 22:** Components related to the rear suspension or track system.
- 23:** A small rectangular plate on the side of the loader's body.
